

Check for Mistakes in this Word Problem: enough-carpet?

Directions: You have 100 square feet of carpet to put down in your room. Write a function that takes in the length and width of your room and returns true if you have enough carpet and false if you don't.

Contract and Purpose Statement

Every contract has three parts...

<code>; enough-carpet? :</code>	<code>number number</code>	\rightarrow	<code>number</code>
<i>function name</i>	<i>domains</i>		<i>range</i>
