Combining Images

Complete the following Pyret expression to produce this final image:

```
overlay(¹
  overlay(²
    overlay(³
      overlay(star(⁴50, "solid", "white")⁵,
        circle(⁶45, "solid", "darkblue")⁶)⁴,
      circle(⁷60, "solid", "darkred")⁷)³,

    circle(⁸80, "solid", "white")⁸)²    ,

  circle(⁹100, "solid", "darkred")⁹)¹
```

Look closely at your closing parentheses: how many do you need? Mark each parenthesis you added with the number of the opening parenthesis to which it corresponds.
