Word Problem: line-length

Directions: *Write a function called 'line-length', which takes in two numbers and returns the difference between them. It should always subtract the smaller number from the bigger one.*

Contract and Purpose Statement

Every contract has three parts ...

; _____ : _____ → _____

; _____

Examples

Write some examples of your function in action...

```
(EXAMPLE (                                    )
         _____  _____
                                                        )
         _____

(EXAMPLE (                                    )
         _____  _____
                                                        )
         _____
```

Definition

Write the definition, giving variable names to all your input values...

```
(define (                                    )
        _____  _____
                                                        )
        _____
```
