Word Problem: red-square

Directions: Use the Design Recipe to write a function 'red-square', which takes in a number (the size of the square) and outputs a solid red rectangle whose length and width are the same size.

Contract and Purpose Statement

Every contract has three parts ...

; MMMMMMMMM : [   ] → [   ]
    function name   *domain*   *range*

; [   ]
                              what does the function do?

Examples

Write some examples of your function in action...

(EXAMPLE (MMMMMMMMM   [   ]   )
              function name   *input(s)*

[   ]   )
what the function does with those inputs

(EXAMPLE (MMMMMMMMM   [   ]   )
              function name   *input(s)*

[   ]   )
what the function does with those inputs

Definition

Write the definition, giving variable names to all your input values...

(define (MMMMMMMMM   [   ]   )
              function name   *variables*

[   ]   )
what the function does with those variables
