Identifying Animation Data Worksheet

Sketch A	Sketch B	Sketch C

What things are changing?

Thing	Describe how it changes
Cyclist's x-coordinate	Increases consistently when onscreen, resets at beginning when offscreen
Angle of wheel rotation	Decreases (wheel rotates clockwise) consistently

What fields do you need to represent the things that change?

Field name (dangerX, score, playerIMG…)	Datatype (Number, String, Image, Boolean…)
cyclistx	Number
rotation	Number
